INTRODUCTION OF HAND WASHING:-

Hand washing also known as hand hygiene, is the act of cleaning one's hands with soap or hand wash and water to remove viruses, bacteria, microorganisms, dirt, grease, and other harmful or unwanted substances stuck to the hands. Drying of the washed hands is part of the process as wet and moist hands are more easily decontaminated. If soap and water are unavailable, hand sanitizer that is at least 60% (v/v) alcohol in water can be used as long as hands are not visibly excessively dirty or greasy. Hand hygiene is central to preventing the spread of infectious diseases in home and everyday life settings. The World Health Organization (WHO) recommends washing hands for at least 20 seconds before and after certain activities.

CHH. SAMHAJI NAGAR
WORLD HEALTH DAY 2024
SEMINAR
ON
"MY HEALTH, MY RIGHT"**

Date: 08/05/2024

Time: 12:00.P.M

Venue: Auditorium MMRI's Kamalanayan Bajaj Nursing College.

World Health Day 2024 is celebrated every year on April 7 to raise awareness around various health issues worldwide. The theme for this year's World Health Day 'My health, my right' highlights that getting access to essential health services should no longer be a privilege but one's right. As per The WHO Council on the Economics of Health for All, at least 140 countries recognize health as a human right in their constitution, yet countries are not passing and putting into practice laws to ensure their populations are entitled to access health services. Kamalnayan Bajaj Nursing college in collaboration with Kamalnayan Bajaj hospital had organized world health day programme .The details of the programme were as below.

SN	Time	Event
01	12.00-12.05pm	Introduction and welcome address
02	12.05-12.10pm	Lamp lighting by dignitaries

8	1:05 to 1:10pm	Vote of thanks	Shivani Vyavhare (4 th year BSC nursing student)

A Seminar was arranged by Kamalnayan Bajaj Nursing College Aurangabad in collaboration with Food save committee, Aurangabad for creating awareness and sense of responsibility to reduce food waste.

Mr. **Anand Motale** President of the Food Save committee given a enlighten session on food waste occurrence and food saving measure, he were focus on following point

1. As per International food organization committee report, there are 121 country in starvation list and INDIA is on 107th place.
2. In India 24 crore people are suffering from starvation.
3. The reason of starvation in many country are occurrence of war, loss of crops, cold climate but as such India is agricultural dominated country the reason for starvation in India are many of the method of food waste like lack of storage facility, lack of providence of legislation, ritual that provoke food waste and less awareness of food saving method.
4. Sir has given solution for reducing food wastage like proper legislation on food saving, reduction of ritual that promoting food waste and using of food bank where residual food can store and given to needed people.

Mr **Nandkumar Kulkarni** given a informative session on saving water where he focus on causes of water wastage like excessive use of water, lack of water storage area he also sang a beautiful folk song about saving water.

Mr Chandrakant Vajpal highlighted of importance of electricity and method to save electricity.

Dr. Supriya Chinchpure ,Principal Kamalnayan Bajaj Nursing College, Aurangabad spoke her views about the concept and ensured to support the food save committee to save our resources and for optimum utilization. She also highlighted the need of saving food and water and she appreciated food committee for coming and giving a informative and salient seminar to the student.

The food committee circulated the pamphlet about pledge to save food and all student and teachers has taken a pledge to save food.

The seminar motivated the participant to take a strong decision to save food and treat the food and electricity as valuable thing in their lifetime.

The seminar were end with the vote of thanks.
